```java
1   public class Account {
2       private String iban;
3       private Person owner;
4
5       public Account(String iban, Person owner) {
6           this.iban = iban;
7           this.owner = owner;
8       }
9
10      @Override
11      public String toString() {
12          return "Account{" +
13                  "iban='" + iban + '\'' +
14                  ", owner=" + owner +
15                  '}';
16      }
17
18      public String getIban() {
19          return iban;
20      }
21
22      public Person getOwner() {
23          return owner;
24      }
25  }
```
