```java
1    public class Main {
2        public static void main(String[] args) {
3            temp(0);
4        }
5
6        public static void temp(int a) throws MyException{
7            System.out.println("start method temp");
8            System.out.println(a);
9            if (a==0){
10               throw  new MyException();
11           }
12           System.out.println("finish method temp");
13       }
14   }
```
